

JOB OPENING

POSITION: PHP Web/System Developer

ABOUT THE COMPANY:

Founded in 2003, Vault Networks is located in Miami, Florida and provides dedicated server, colocation, and cloud services to clients located throughout the world. Leveraging a proven set of technologies and extensive subject matter expertise, we deliver cost-effective, flexible solutions that provide responsive and predictable levels of service for our clients' businesses.

Companies across a variety of industries rely on Vault Networks to build, implement, and manage their mission-critical systems. Vault Networks is a trusted advisor--committed to ensuring the long-term success of our customers' business applications and technology needs. To learn more about Vault Networks, please visit our company web site: www.vaultnetworks.com.

ABOUT THE POSITION:

The PHP Developer is responsible for the designing, coding and testing of the company's web-based applications for internal and external clients. The ideal candidate will have at least 5 years experience of programming in PHP, HTML 5, CSS 3, MySQL, Javascript (jquery), and shell scripting in a Linux / Apache / MySQL / PHP environment. **PHP and MySQL are absolutely required.**

We're really interested in finding people that can help us push the boundaries of what can be done with modern web technologies. Successful candidates will be responsible for delivering the most elegant, powerful, useful and intuitive interfaces possible to our clients by performing the following duties:

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- ✓ Translates static design layouts into dynamic web interfaces.
- ✓ Develop project plans, reports and documents.
- ✓ Improving web site usability and performance.
- ✓ Working with operations, engineering, product management and community/customer care to solve problems and fix bugs.
- ✓ Working with others to envision, design, and develop sophisticated user interfaces for web applications.
- ✓ Write business requirement documents, functional / technical specification documents.
- ✓ Other duties that are within education and experience may be assigned for the betterment of the company.
- ✓ We have a lot of additional work to do. If you're good, we'll find a place for you.
- ✓ A wide variety of experience from business process to coding nagios monitoring plugins is a major PLUS.
- ✓ **Responsibilities are expected to increase substantially as the company grows.**

REQUIREMENTS:

- ✓ Bachelor's degree in computer science, mathematics, engineering, physical science, or related technical field
- ✓ Excellent Critical Thinking Skills, Interpersonal and People Skills, Listening Skills, Multi-Tasking Ability, Oral and Written Communication skills to effectively interact with senior management, subordinates, external clients and a team environment
- ✓ Disciplined coding style with an eye toward maintainability, scalability, and aesthetics of the code base utilizing MVC or other standards.
- ✓ Collaborative development in a team environment
- ✓ Formal testing / software quality assurance experience, including hierarchical test cycle (unit test / application test / system test / user-acceptance test)
- ✓ Excellent analytical, troubleshooting and communication skills.
- ✓ Experience working with JSON / XML / REST APIs
- ✓ Proficient with MySQL (table creation, query generation, indexing, etc)
- ✓ Expert understanding of LAMP stack
- ✓ Thorough knowledge of: CSS 3, HTML 5, Javascript (jquery), XML and related software
- ✓ Occasional after hours support to address business-critical application issues is required.
- ✓ Versioning System (Git)
- ✓ Linux System Administration
- ✓ Bash, Python, Perl scripting
- ✓ Meticulous attention to detail (OCD a plus but not required)
- ✓ An obsession with high-quality deliveries

WHAT YOU CAN EXPECT:

- ✓ Highly Competitive Salary
- ✓ Top Medical Benefits
- ✓ Competitive PTO Offering
- ✓ Casual Work Environment
- ✓ Team oriented culture with accessible and open-minded leadership
- ✓ Dynamic Web 2.0 hyper-growth career opportunity

****NOTE: This is a very demanding and high-performance role and not for the candidate that only wants to maintain sites.** We seek a forward-thinker....an innovator who wants to create something special and cutting-edge. If you seek a challenge, then this may be the place for you.

This is a full-time, salaried position located in downtown Miami. We offer a competitive salary plus benefits package and the opportunity to work and collaborate with some of the best IT technology professionals in the industry.

Interested candidates should submit resume plus cover letter to Jobs@Vaultnetworks.com.
